Design  
CarlesiTonelli

Combining different areas of expertise and careers in industrial design, they founded their studio in 2004. They link a passion for design to their knowledge of materials and technologies, and producers' demands to the market trends. They accept the challenge to find

new meanings in simple things, adding harmonious and friendly shapes to both private and public scenarios. Design, art direction and communications are the fields where they perform and interact with customers, in a relationship sharing values and goals.

At its sole discretion, the company reserves the right to change dimensions and type of construction, and to make improvements and other changes to its products. The printing process does not give a perfect

reproduction of the colours. For more accuracy, it is advisable to refer to the samples of materials available on request. All reproduction rights of all or part of the designs and illustrations are reserved worldwide.

## Margot

### Versatility with character

design CarlesiTonelli

Margot merges two essential features into one design concept. Shaped as a chair and embracing like an armchair, it blends in perfectly with tables and desks, while also lending itself to a more comfortable use by simply changing its base. Its flexibility does not in any way affect its ability to make each and every environment stand out with its unusual design.

The gap between the seat and the backrest makes Margot very practical to use, easy to clean and move around, as well as highly dynamic and unique. It comes in a variety of wooden or metal bases and legs, either fixed or on castors, in order to meet any type of use and interior design requirement. The stool version expands the collection boundaries further.
